

# Heat Recovery System

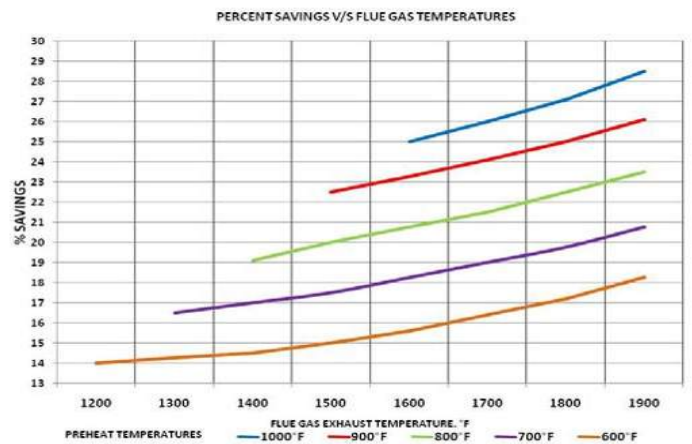

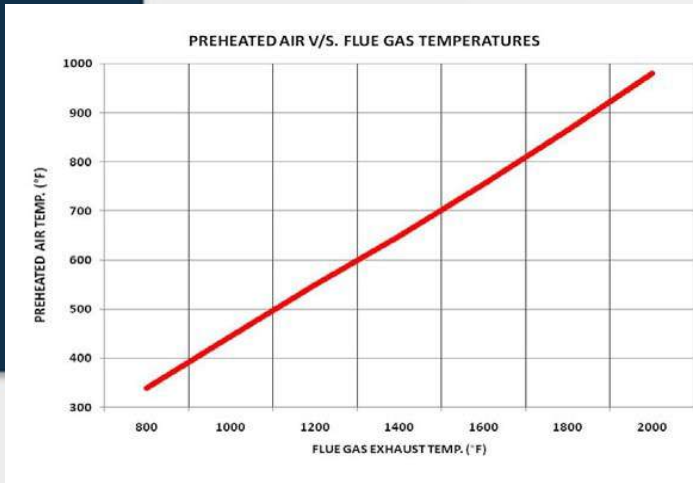

IF la Fornitecnica

**Main Features:**

- Intentionally studied for heat treatment furnaces
- Energy and fuel saving concept
- It can be installed on "U" radiant tube
- In stainless steel - high temperature resisting
- Easy installation
- Highly efficient heat exchanger

**Benefits:**

- Extraction of the heat energy normally lost
- Heat transfer to the combustion air required by the burners
- Energy saving computable from 15% to 25%
- Fuel saving possible at various operating temperatures
